Where style and innovation meet

CHROMA VX

Chroma VX technology is based on a specific blend of urethane and acrylic polymers. This proprietary process provides a beautiful rich, low gloss, smooth finish that will last throughout the years.

Chroma VX, an exclusive technologically advanced formulation enhances weatherability and is compliant with the highest standards of AAMA. Our versatile colour system allows you to add any of our window colours (below) to your window's exterior, while leaving the interior finish a neutral white.

HIGH-PERFORMANCE WINDOW TECHNOLOGY

3 technologies in 1 high performing window

ēvolv

Proprietary **ēvolv** Glass Technology provides triple-pane thermal efficiency in a double-pane window by reflecting escaping heat back into the room, **increasing thermal efficiency by up to 29% above industry average,*** which adds up to substantial energy savings.

*Average measured from Energy Star® data of three other window manufacturers.

es TECH

Patented ECTECH Technology produces cleaner, clearer windows. The titanium dioxide coating absorbs the sun's UV rays, loosening dirt particles and allowing water to rinse them away naturally. **Water spots are reduced by 99%, creating crystalline glass clarity.**

KP AIR SEALING TECHNOLOGY

KP Air Sealing Technology offers unmatched air infiltration protection, **cutting drafts by up to 24%**** with a mold resistant seal and guaranteed for life.

**Based on independent laboratory testing.

**Proudly
Manufactured
In Canada**
